

ENVIRONMENTAL POLICY

Our commitment to environmental responsibility and our local community has been established in order to maintain environmentally friendly working practices and to minimise the impact of the Company's activities on the environment.

POLICY

Industrial Textiles & Plastics Ltd will perform all operational activities and maximise pollution prevention in a manner that balances cost-effectiveness, environmental considerations, quality and the views of our Community, Customers, Employees, Suppliers, Regulatory Bodies, and other interested parties.

We will manage our business, to meet the requirements of legislative and regulatory bodies.

OBJECTIVES

Raise employee environmental awareness and encourage action in both the workplace and at home.

Minimise the impact of raw material use, waste and emissions through careful design, contract specification and process control.

Monitor and minimise energy consumption.

Continue landscape and architectural improvements and best practices.

COMMITMENT

The Managing Director shares the responsibility for environmental management with all employees who in turn all have a responsibility to continually improve our environmental performance.

REVIEWS

We will periodically review our policy.
